

Tools and DMMA

Questions

Tools

1. The Enterprise Dictionary can fill two functions, which two?
2. The policies applied to some data don't need to apply to the metadata about that data. How come?
3. Give two examples of information that can be found in a Data Catalog.
4. Give three reasons for data lineage tracking.
5. What types of tools help with the different aspects of Data Governance?
6. What tools are currently in use at your organization, and how?

DMMA

7. Has your organization performed a Data Management Maturity Assessment in the past?
8. The results of a DMMA can work as inputs into a Data Governance program. Do you see the need to perform a DMMA in your organization?
